Background

The Zambia Institute of Chartered Accountants is a self-regulated body for the accountancy profession in Zambia. It was established by an Act of Parliament of 1982 and repealed by the Accountant's Act of 2008. The primary mandate of the Institute is to promote the accountancy profession through the regulation of the accountancy practice and education.

OUR VISION

"A world class professional accountancy regulator and education"

OUR MISSION

"To uphold the highest professional standards in accountancy education and practice to the satisfaction of stakeholders"

The ZICA Taxation Programme

Taxation is a specialist field which draws on law, administration and accountancy. By and large, most taxation work in Zambia is undertaken by accountants. However, tax is a complex and diverse field requiring specialised technical knowledge. Increasingly, there has been demand from the market for a specialised training programme in Taxation to increase technical capacity that matches the growth in the Zambian economy. In putting this programme together, the Institute drew upon the wide experience it has in training accountants. The programme was developed to address the following:

- Offer a thorough understanding of the Tax system and practice of Taxation in Zambia to professional accountants.
- Enhance the understanding of tax among the professionals from a wide range of disciplines who may not have a background in accounting but are actively involved in the various facets of taxation.
- Give an opportunity to all those who require a recognised professional qualification in Taxation for whatever reason.

The programme has two levels, the certificate and the diploma. Each level consists of six (6) modules. Candidates who pass the six (6) modules at the certificate level are awarded with a ZICA Certificate in Taxation and those who pass all the six (6) modules at Diploma level are awarded with the ZICA Professional Diploma in Taxation.
